

# M-Turn Valve Turner

Powered by the Milwaukee 18V Fuel brushless system with ONE-KEY technology, the Valvemax M-Turn is an advanced valve turning solution that offers both forward and reverse capabilities, providing versatility and ease of operation.

Equipped with a charger and one 12AH battery, the M-Turn ensures uninterrupted performance when in use. Its built-in counter enhances efficiency by accurately tracking valve operations. With a one-inch drive designed for the Valvemax telescoping valve key, this tool delivers precise control and maximum torque.

Operating at a no-load RPM of 0-35, the M-Turn offers optimal speed and power for valve maintenance tasks. Additionally, its autostop feature detects kickback and automatically shuts off the tool, prioritizing user safety and preventing potential damage. The Valvemax M-Turn sets a new standard for valve turning efficiency and reliability.

## CUMBERSOME MANUAL VALVE TURNING

The Valvemax M-Turn addresses the challenge of manually turning valves, which can be physically demanding and time-consuming. The M-Turn delivers robust torque and speed, enabling efficient valve turning operations.

## SAFETY

By incorporating features such as autostop, the M-Turn mitigates the risk of injury associated with valve operation, particularly from kickback.

## INEFFICIENT VALVE MAINTENANCE

With its advanced technology and features, the M-Turn streamlines valve maintenance processes, saving time and effort for operators.

## ADVANCED POWER SYSTEM

Powered by the Milwaukee 18V Fuel brushless system with ONE-KEY technology, the M-Turn offers unmatched performance and reliability.

## AUTOSTOP FEATURE

The M-Turn's autostop functionality enhances safety by automatically shutting off the tool in response to kickback, protecting both the operator and the equipment.

## BUILT-IN COUNTER

With its built-in counter, the M-Turn provides operators with accurate tracking of valve operations, improving efficiency and accountability.

## COMPATIBILITY AND CONVENIENCE

Designed with a one-inch drive for the Valvemax telescoping valve key, the M-Turn offers seamless integration and ease of use.

## PACKAGING

Includes telescoping key with 35mm tapered socket.
